

Best posters awards candidate

- 853 Routine use of OncoDoc2, a guideline-based decision support system for breast cancer: categorization and quantification of cases of non adherence with guidelines (J Bouaud, B Séroussi, J Gligorov, E Darai, JP Lotz, R Rouzier, E Touboul, S Uzan)
- 927 An automated System for Brain Tumor Detection from MR Images (Qu Ain, S Batool, A Jaffar)
- 430 Architecture Development for Interopreable EHR in Korea (MR Choi, HR Kim, SY Kim, IJ Hwang, JB Bae, Y Kim)
- 756 Representation of Patient Terms for Symptoms and Health-Related Problems Using SNOMED CT(R) (D Wantland, C Ruland, SJ Nordberg, S Bakken) I. Hospital Information Systems L. Standards, Ontologies and Terminologies 73. Controlled terminology, vocabularies, and ontologies
- 335 Design and Development of Tailored Interactive Education Program for Safe Medication of the Elderly (M Park)
- 510 An individualized web-based information supply system for home oxygen therapy patients (M Sumi, M Azuma, K Ishigaki, H Inada)
- 372 The use of a Social Network Analysis for a Physician Engagement Model for CPOE (L Lancaster, T Ghosh)
- 424 Impact of Potential Teratogenic Medication Alert System in the Emergency Department (HW Han, JH Lee, JS Hyun)
- 467 Knowledge acquisition for clinical trial phase categorization (A Fischer, G Markl, U Mansmann)
- 964 Applying process mining techniques to analyze clinical processes (G Leonardi, S Quaglini)
- 533 EpiBasket: a prototype information system to support the epidemiological investigation of an emerging infectious disease outbreak (W Xing, G Hejblum, AJ Valleron)
- 681 Evaluating Health Information Exchange for Public Health (J Merrill, A Phillips, G Hripcsak, L Kern, R Kaushal)
- 227 Development and Evaluation of Website about Nursing Care in Postanesthesia Care Unit (T Honório Lins, T Honório Lins, H de Fátima Marin)
- 433 An Integrated Architecture for a Customized CDS Service from Heterogeneous CDSSs (HJ Kam, MY Park, W Kim, DY Yoon, JA Kim, I Cho, Y Kim, RW Park)
- 209 Virtual Patient-Based Final Examination - a model to reach advanced level standards? (E Forsberg, U Fors, K Ziegert)
- 375 Lessons from Jazz-An Improvisation Model for Change Management Strategy for Computerized Physician Order Entry (CPOE) (T Ghosh)
- 459 Hospital Information Disaster Recovery System and Simulation Drills (SW Min, JH Lee, GS Eo, SG Han, YS Lee)
- 677 Implementation and Evaluation of an On-line Prescription Check System using a Database of Drug Indications (K Miyo, K Ohe)
- 759 Propensity Score-Weighted Survival Model for the Benefit of Adjuvant Chemoradiotherapy for Gallbladder Cancer (JH&SU Kalpathy-Cramer, G Walker, D Chang, JS Kim, CD Fuller, C Thomas, S Wang)
- 827 Analysis of the Use of Social Media for Adequacy Evaluation of Health Related Websites Based on Health on Net Code. (A Falcão, F Mancini, F Teixeira, F Sousa, A Hummel, D Sigulem, I Pisa)
- 957 Using Electronic Medical Records to Measure Guideline Adherence in Low-Resource Settings (Z Landis Lewis, C Mello-Thoms, S Visweswaran, R Crowley)
